## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 143,182-194,196-200,213-255,262-270,273-281,292-304,359-379,389,401,404-452,458-471,475-479 and 481-521 are allowed.
2. The following is an examiner's statement of reasons for allowance: The amendment filed on September 19, 2007 includes new claims that includes the allowable subject matter as recited in office actions dated March 23, 2004, August 9, 2005, and March 2, 2006. Also the amendment added the limitation of "tack free" and "adhesive free" in claims 227, 359, 406, 409, 412, 436, 441, 452, 458, 461, 469, 519, 520, and 521 and the support for these claims can be found in figure 5 and the Specification, Page 9, line 19 to Page 10, line 5, where the sheet construction (224) includes a facestock sheet (212) secured to a LDPE layer (204) of the dry release base material or liner sheet (208) with PSA layer (216) and the facestock construction delaminates at the LDPE-liner interface, which allow the LDPE layer (204) to remain with the facestock sheet (212) and the PSA layer (216) and thereby sandwiching the adhesive between the facestock sheet (212) and the LDPE layer (204) and therefore provide an "tack-free" or "PSA free" printable media or business card. Furthermore, the Specification, Page 4, lines 16-25 discloses the dry laminate are formed with the teaching of references to Kamendat et al (U.S. 3,769,147), which teaches a method forming a temporary support web material by bonding a paper stock to a heat soften bonding on a temporary support and easy strip the stock from the support without damaging or leaving residual on the stock. (See Kamendat et al, Col 2, lines 18-42)
